Orchard Street Paving Job Goes to Liberty Petroleum Company

Bid of \$6,596.67 Lowest of Three Submitted to Trustees

The Liberty Petroleum Co. of Libertyville was low bidder and will receive the contract for widening and paving of Orchard st. a block west of Main st.

The successful bid was \$6,596.67. Other bids were: E. A. Meyer Construction Co., North Chicago, \$8,227.55; and Eric Bolander, Libertyville, \$8,100.95.

The bids were opened at 8 p. m. by the village board meeting in special session for the occasion. The bids were then inspected by Walter Rakow, representing the village engineer, Victor Kasser, and by Noel Thomas, representing the state highway department.

Rakow studied the Liberty Petroleum Co. bid totaled at \$6,596.67 and found an error that upped it \$9. The pavement will be of asphalt mix and will have 65-foot width past Broadways where it will narrow to present width.

Present at the meeting to insure a quorum were trustees Arthur Rosenfeldt who recently returned from Sarasota, Florida, Edgar Simonsen, who recently underwent surgery, and Arthur M. Hawkins, who has been bedfast a week with a throat infection.

Kidera Protests Lake Villa Twp. Specimen Ballot

Write-in Candidate Says Specimen Ballot Is Not Legal

Ed. J. Kidera, Lake Villa building contractor, and a write-in candidate for the office of supervisor in Lake Villa township, charged today that specimen ballots currently being circulated by Town Clerk Ed. Tiede, also a candidate for the supervisorship are illegal in that no place for a write-in vote is provided.

Kidera added that according to legal advice, the Clerk is the only person who can issue a specimen ballot, and that the specimen should be an exact copy of the official ballot to be used on April 7. Kidera said that apparently the voters are going to be given no choice at the polls and must vote for the names on the ballot only, since the method of attaching stickers to the ballots has been declared illegal, and no place for a write-in or independent vote is provided.

In a statement issued today Kidera said, "Today, I asked the Town Clerk if I might see a specimen ballot. The enclosed is what he is handing out. No provisions have been made for a write-in candidate. He refuses to let me see an official ballot (in his rights and duties as Town Clerk he may be justified in his stand.) BUT—will the people of Lake Villa Township have an election?"

Clerk Tiede told newsmen today that the specimen ballot in question was printed at private cost and that any other candidate would have the right to have their own printed. He added that there would be plenty of space for a write-in for any of the offices, and that the ballot would be prepared according to law.

Antioch - Lake Villa Cancer Fund Crusade Will Seek \$900 Goal

In Lake Villa, Mrs. John Perry will head the Cancer crusade for the third time. Mrs. Paul Lawrance is acting as co-chairman with Mrs. Perry.

Squirrel Dies As Prisoner in Home Of Art Rosenfeldt

Mr. and Mrs. Arthur Rosenfeldt who returned home a week ago from Sarasota, Fla., where they spent the winter were mystified in their discovery that the wood had been chewed away from four of the six window frames in the basement.

Investigation revealed that a squirrel had fallen down the chimney, got into the basement through the cleanout door and then tried unsuccessfully to chew its way out. Large strips of wood were torn off but the glass could not be broken.

The squirrel was found curled in a clothespin basket—the sides of the basket having been chewed in its dying efforts to get out.

The Rosenfeldts plan to spend the summer in Antioch and then may move to Florida where they have land for building purposes.

Dolph Stanley Tells Athletes and Fathers Importance of Sports

Dolph Stanley, basketball coach at Beloit college, principal speaker at the Lions club annual athletic banquet held Monday evening, told high school athletes, Lions and fathers of the importance of the athletic program at all educational levels. Stanley, who has had an unsurpassed record as a basketball coach during the past twenty-five years, said that principles of fair play, teamwork, and sportsmanship presented by athletic programs worked a lasting good in the youth of today. He touched on the relative safety of today's games, saying that equipment and rules of sports as played today make football and basketball a much safer game than they were years ago.

The annual banquet was very well attended and athletes were presented by their respective coaches. James W. McMillen, Antioch village president, commended the boys for the fine showing made this year, and thanked the school and the boys for favorable results to Antioch.

Homer LaPlant, Lions club president, presented a new sportsmanship trophy to the school. The trophy will be engraved each year with the name of the outstanding athlete in each of four sports. This year's winners, announced Monday are Bob Floyd, basketball, and Bill Bachmann for football. Wm. Brook acted as toastmaster.

"Going Places", Senior Play will be Presented Tomorrow at A. T. H. S.

The Senior class of the Antioch High school will present "Going Places", a comedy by Glenn Hughes under the direction of Mrs. Jeanette Tulumello in the new Antioch High School auditorium Friday, March 27.

"Going Places" amusingly portrays the difficulties of getting into college. Chuck Malloy is a whiz at football, but a dud at Ancient History. He wants to enter Dartford college and has passed all examinations but history. Warfare over athletics versus education among the Dartford college staff doesn't ease the situation. Jeff Sterling, student football manager, is anxious to have Chuck on the football squad and wants to find a way to get him into Dartford, so with typical zestful ease, the students plot schemes that nearly rock the foundations of the school.

The cast is as follows: Dr. Kimball—Charles Bock Mrs. Kimball—Joan Cervenka Shirley Kimball—Sylvia Beelow Jeff Sterling—James Osmond Chuck Malloy—Delmar Adams Rosemary Lee—Karen Martin Cuthbert Lee—Robert Hernquist Aunt Kate—Mary Kisel Prof. Stubbs—William Deering Mrs. Stubbs—Lorraine Steinel Gladys—Judy Gaston Florence Ward—Carol Loftus

There will be two performances of "Going Places". A matinee at 1:20 and an evening performance at 8:00. The matinee will be exactly the same as the evening performance and persons who are unable to attend the evening performance may attend the matinee.

Serving on the stage and properties committee are: Mary Fields, Uldine Anderson, Lorraine Steinel, Bruce Stahmer and Andy Anderson. Ticket sales: Dolores Braeckman, Leonard Case, Phyllis Cys Nancy Vanc, Jeanne Hughes, William Wilson and Mary Ann Nielsen. Advertising: Audrey Case, Gloria Lasco, Marilyn Gliniecki, Leo Bogertes, William Bachman and Geraldine Pagusch. Ushers: William Parmer, Jack Heiligenthal, Robert Weber, Janet Bunkelman, Joyce Kiehl, Mary Lou Gorman and Gwyn Pierce.

Music will be furnished by the Music Department under the direction of Mr. Edward Ruffolo.

Antioch Township High School's Addition, Remodeled Building, to be Dedicated Sunday

GRASSROOTS ACTION BUILDS A STRONG NATION

Rash of Grass Fires Kept Firemen Busy During the Week-end

A rash of grass fires, the greatest number in many years kept the Antioch fire department busy over the week-end.

There were three calls Saturday, 12 on Sunday, and one on Monday, a total of 16 in three days.

The calls came so thick and fast Sunday afternoon that the alarm was not sounded, and the firemen were sent out on another call as fast as they returned. At one time four pieces of equipment were sent out in four different directions.

Firemen waded water almost knee deep at a slough at East Loon lake in extinguishing one fire, and in that area another fire caught the roof of a barn, but firemen were able to save it.

"Nearly every blaze would have threatened buildings had it been allowed to burn," said Clarence Shultis, secretary.

All fires resulted from rubbish fires started by residents unmindful of the strong wind which carried sparks beyond their control.

The department was called to help Lake Villa on one occasion when the grass blaze became serious.

Fire Chief Edgar Simonsen again warned people to be careful. Not only is there a serious threat to valuable property, but the expense to the fire district is great.

Cermak Re-elected President of Local Chamber of Comm.

Other Officers Re-elected; Pechousek, Larson Directors

Charles J. Cermak, real estate and insurance dealer, was re-elected president of the Antioch Chamber of Commerce by the board of directors Monday evening.

Also re-elected were George Borovicka, vice president, and Rudy Eckert, treasurer.

Other board members are Dean Williams, Arthur Meyer, Joseph Patrovsky, Mrs. Marion Pechousek, and Ted C. Larson.

Discussed at the meeting was the possibility of setting up an information booth in the village during the vacation season. The chamber also will investigate the bringing of small industry to the village.

Firemen Want Pictures

The Antioch fire department is asking for pictures that pertain to the department since its beginning to be kept in an album depicting pictorially its history.

Robert Gaston has started the album and will maintain it through contributions. The picture may be of individuals belonging to the department, scenes of fires, firemen's gatherings, pictures of equipment, and any other subject directly pertaining to the activities of the department.

Mrs. Kapell was a member of Jehovah's Witnesses. Survivors are her husband, Henry, two sons, George W. and Henry C., all of Channel Lake, a daughter, Mrs. Mildred L. New \$650,000 Plant Has Auditorium, Gym, 9 Class Rooms, Shops

Dedication at 3 p. m. Has Interesting Program For Visitors

Antioch Township High School's new \$650,000 addition will go on display to the public Sunday afternoon during an open house and dedication.

Visitation will be from 2 to 5 p. m. and the dedication program will be presented at 3 p. m.

The program will open with the invocation given by the Rev. Alfred J. Henderson of St. Peter's Catholic church after which Fred Scott, president of the board of education, will present guests.

The high school chorus under the direction of Edward Ruffolo, will sing "Oh Divine Redeemer," by Gounod, and "Oh Lovely Heart," by Robertson. Members of the chorus are Joan Cervenka, Karen Martin, Marlene Wertz, Nancy Swenson, Carol Loftus, Jeanne Hughes, Lorraine Steinel, Phyllis Cys, and Margie Haling.

Elden D. Finley Speaker
Principal Albert Dittman will present the main speaker, Elden D. Finley, assistant superintendent in the office of the superintendent of public instruction, State of Illinois. The benediction will be given by the Rev. L. H. Messersmith of Millburn.

It is expected that hundreds will take advantage of the opportunity to see the beautiful new addition. According to the architects, Charles W. Nichol and Associates of Chicago, the entire school plant has a "new face."

Space 240 by 200 feet
The one and two-story structure wraps around two sides of the existing building. The two-story portion is 130 x 64 feet; the one-story shop portion 120 by 80 feet and the gymnasium, locker room, and music department are 200 by 85 feet, making an overall plot dimension of 360 x 200 feet.

The exterior of the new structure is an attractive face brick with crab orchard stone and steel sash. Heating and ventilating are of the radiant hot air type system with hot air passing through the floors and entering the rooms at the exterior walls.

In the two-story portion of the school where the offices and classrooms are situated, interior beams are all reinforced concrete, while the one-story part is structural steel. The new gymnasium already familiar to many persons through its frequent use has all-steel rigid frame construction with fold-away seats.

Has Splendid Lighting
Fluorescent lighting is used, floors have asphalt tile, and ceilings are acoustic tile. Maple flooring has been used in the gymnasium floor and on the auditorium stage.

Recessed lockers have been provided in corridors, and each classroom has a case for storing teaching materials.

The new addition includes the new gymnasium and locker rooms, nine classrooms, music department, three shops and the drafting room. The new administration offices are well lighted and attractive.

Has Fine Auditorium
Remodeling of the old structure has changed the old gymnasium into an auditorium, regarded as one of the finest in the area. It has theatre-type seats, providing seating for 616 students. It has a warm and colorful decorative scheme.

The old auditorium became a girls' gymnasium, and the old administrative area became study rooms. The old library was moved to provide enlargement of the cafeteria and the new kitchen was built into the old building.

The unusual feature of the entire school is said to be the integration of the old building into the new addition to form a comprehensive and outstanding school plant. The ground surrounding the structure will be landscaped later.

Mrs. Dorothea Farms filled the office of Ruth at Wabansia chapter, Order of the Eastern Star in Chicago Monday evening. Ten members of Antioch chapter were in attendance.

Economic Highlights

The two-party political system is essential if we are to have reasonably efficient and honest government—and government which is responsive to the will of the people. There is considerable difference of opinion as to just how healthy that system is today.

Thus, Farm Journal says in its January issue, "High among the several fortunate results from the election must be counted the strengthening of the two-party system in government. The Democratic party retains a strong representation in Congress. Neither House nor Senate will be overwhelmingly one-sided. The administration will be subjected to constant scrutiny by Democrats in House and Senate who, as critics, will be performing their proper minority functions."

"We rejoice that this election has so strengthened the two-party system—one to administer the government, and another always vigilant and aggressively ready to take over."

A somewhat less sanguine view is taken by Herbert Hoover in an article in a recent issue of This Week. In his opinion the Number 1 reform needed in our democratic process "is the restoration of a real two-party system."

Mr. Hoover does not believe we have that kind of a system now. For a century and a half, he writes, the dominant elements in both parties have held "to that interpretation of Liberalism which meant more and not less liberty for the individual." He adds, "Today, ideological differences smash around like a loose cannon on the decks of both our political parties."

What, then is Mr. Hoover's suggestion? He believes, in essence, that we should have a party of the left and a party of the right. The leftist party would be the Democratic party, and those who held such views would belong to it and run for office under its label. The rightist party would be the Republican party, and the views of its members and candidates would follow that philosophy. Unless this happens, Mr. Hoover feels, the democratic process will be wrecked on the rocks of "conspiring futile factions" and the two parties "will be on the road to a place

where the people can have no authority in the ballot box or in the government." He observes that many European governments have cracked up because of the multitude of fractional political parties. A good current example of the dangers of fractionalism is France, where it has not been possible to form effective government at all.

In any event, it is obvious that both the parties contain many anachronisms. To take but two examples, the views of Senator Morse of Oregon, who now calls himself an "Independent Republican" are as much more in accord with the official position of the Democratic party than that of the GOP—while those of Senator Byrd of Virginia, who holds office as a Democrat, are very much like those of President Eisenhower and in some instances are of a more conservative nature. This is the case, to some degree, with many men in both branches of Congress.

Many students of our political system hold that a reshuffling of our parties, such as Mr. Hoover advocates, is the only sound and workable solution.

Grassroots Opinion

NORWALK, CONN., HOUR: "... A quarter of the country's gross output of goods and services is the result of government expenditure. If once more Americans assume individual responsibility for 'attaining' their share of domestic tranquility and welfare, their government can concentrate on what alone it can provide, the common defense. ... It is cheaper by billions to support ourselves than to support a huge government in order that it may support us."

WEST PALM BEACH, FLA., POST: "Today flood-control and river and harbor projects do for the nation's law-makers what post offices used to do. In other words, they supply the pork that legislators slice off for home consumption. ... The coming to power of a new administration next month provides a fitting excuse for reviewing this entire program with the intent of putting it on a sound economical footing."

THE NEW YORKER: "A photograph in the Times the other morning showed the Declaration of Independence and the United States Constitution on the move—a couple of non-semi-precious documents being shifted from the Library of Congress to the National Archives building. A military escort attended them, an armored car bristled in the background, bagpipers squealed their delight and kindled blood. How uncomplicated it looked, the physical act of guarding our greatest treasures! And how serene life would be if the essence of the documents could be guarded so easily, so precisely, and with such gay props as bagpipes and such exact ones as machine guns! Ah, Liberty—you look so simple crossing town!"

Richards responded with a toast to the mothers. The ladies with their guests adjourned to the auditorium where Mrs. Gilbert Tuttle showed pictures taken on one of their western trips and the group joined in community singing.

Mrs. Frank Dix, Donald, Joyce, and Dixie Lee, Mrs. Louis Slamar, Mrs. M. W. Bloss, Mrs. Arthur Bloss, and Miss Olive Hope were among those from this village who shopped in Milwaukee Saturday.

Mrs. Lester Dix entertained at luncheon Tuesday, Mrs. Walter Rasch of Skids Corners, Mrs. Ernest Oberhofer, Twin Lakes, Mrs. Paul Ganzlin, and Mrs. Ray Stoxen of Wilmet.

Sunday evening supper guests of Mr. and Mrs. George Belmer were Mr. and Mrs. Andrew Fennema and Mrs. Charles Curtis of Kenosha, Mr. and Mrs. E. H. Hartnell, Mr. and Mrs. Miner Hartnell of Salem.

Mr. and Mrs. Ray Patrick and son, Michael, of Kenosha called at the Byron Patrick home Sunday evening as they were enroute home from the day with Mr. and Mrs. Le Roy DeBell.

Among activities at the Salem Consolidated school the past week, was a dinner Tuesday evening when members of the Salem Farm bureau entertained the 4-H leaders of the county. During the social hour, slides were shown, portraying life in Switzerland, and community singing led by Mrs. Leet. On Wednesday evening, Mr. and Mrs. Jasper McCormick had charge of the Salem Pioneer 4-H club. Following a short business meeting, Marlow Nelson showed slides taken in Japan and Korea. The Salem troop of Boy Scouts met the same evening with Mr. Middleton in charge, and joined the 4-H club group for a social hour and refreshments.

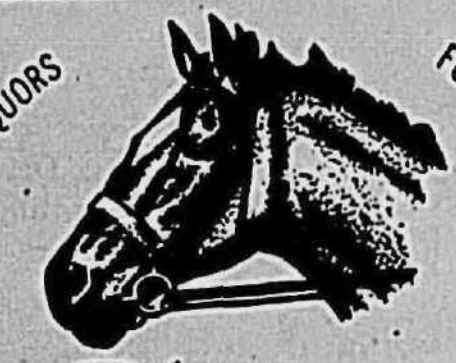

Mr. and Mrs. Jasper McCormick drove to Statesan Sunday, taking with them their daughter, Miss Grace, a student in practical nursing at the Kenosha Vocational school. She has enrolled for a five-week course in the State Sanatorium at Wales.

Mr. and Mrs. William Olsen drove

to Chicago Sunday for the day with relatives.

Mr. and Mrs. Jasper McCormick and family were at the Joseph Mil-

ner home in Paris township Tuesday evening to attend a party honoring the birthday of Mrs. Milner, their daughter.

HARTIGAN ANNOUNCES CANDIDACY FOR RE-ELECTION

In announcing my candidacy for re-election as Justice of the Peace in Grant Township I ask the voters to support me only if they feel that my record justifies their confidence.

When elected four years ago I promised to handle all cases in an impartial manner. This, I have done.

I promised to carry out the obligations of the office to the fullest extent. The fact that more than 400 cases are entered in my criminal docket and about 100 in the civil docket is proof that I have been active. Actually the civil cases entered in the docket are considerably less than half of the number handled. Most have been settled without litigation. A rough estimate of total civil cases would be about 300.

I believe that this proves that I have been the most active Justice in the western part of Lake County.

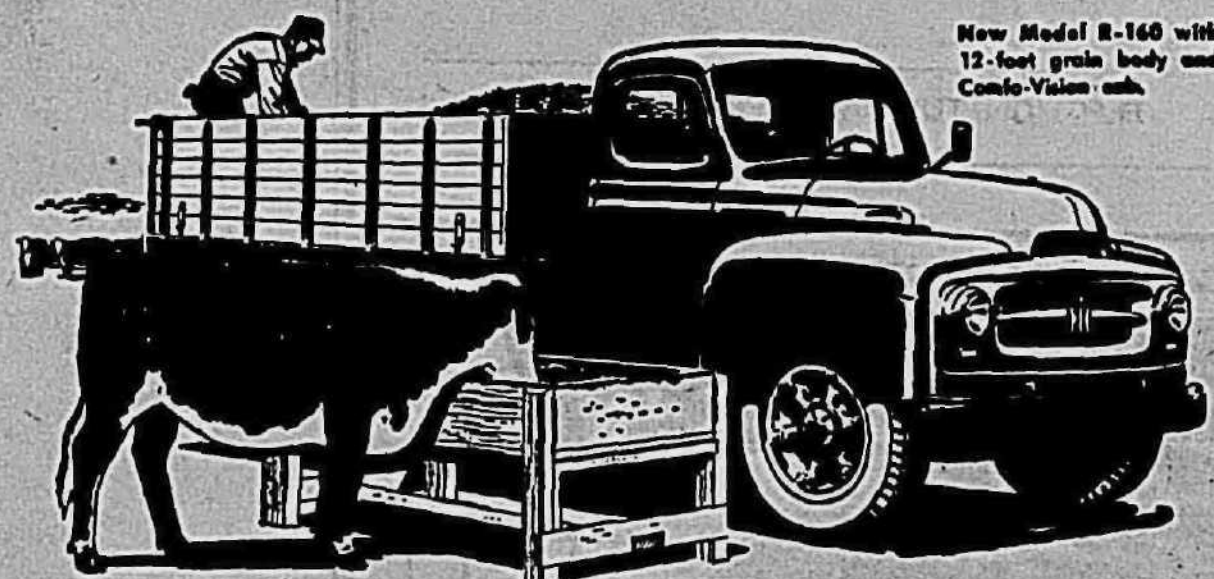

Only one type of activity has been refused. Four years ago I stated that I felt that marriage was a matter for serious spiritual consideration and would refer any requests of this nature to the Clergymen of the community. This, I have done.

Juvenile cases have been handled on a local basis whenever circumstances permitted. In others I have worked with or under the direction of County Judge Minard E. Hulse.

If this record justifies your support I will appreciate your vote on April 7th.

HIS ERROR

An Irishman, an Englishman and a Jew were telling of their strange experiences and how they were mistaken for great men.

"Would you believe it," the Irishman said, "I was once mistaken for President Coolidge."

The Englishman turned to his fellow countryman. "That's nothing," he said, "I was once mistaken for President Hoover."

"Huh?" the Jew said. "I was standing on the street corner the other day and a cop came along and said to me, 'Holy Moses, are you here again?'"

HIGHLY REGARDED

On the way to the office of his publishers one crisp fall morning, James Whitcomb Riley met an unusually large number of acquaintances who commented conventionally upon the fine weather. This unrelenting applause amused him. When greeted at the office with "Nice day, Mr. Riley," he smiled broadly.

"Yes," he agreed. "Yes, I've heard it very highly spoken of."

A Lesson

When Mark Twain edited a newspaper in Missouri, one of his subscribers wrote him that he had found a spider in his paper and wished to know whether it meant good luck or bad.

Twain replied: "Finding a spider in your paper is neither good luck nor bad. The spider was merely looking over our paper to see which merchant was not advertising, so that he could go to that store, spin his web across the door and lead a life of undisturbed peace ever afterward!"

Stop Your Lying

"Oh, mother, a truck went by as big as a house!"

"Bobbie, why do you exaggerate so terribly? I've told you 20 million times about that habit of yours, and it doesn't do a bit of good!"

Eight Cars Derailed at Grayslake Sunday

Eight box cars were derailed and piled up on the Soo Line railroad Sunday afternoon when a journal froze and finally broke a coupling. The wreck occurred near the junction of route 83 and the tracks, and the highway was closed for about two hours while the wreckage was cleared from the road. No one was injured in the accident, but approximately 200 yards of track was torn up and considerable damage was done to the cars.

Flying Hours

Army aircraft flew a total of 64,541 combat missions and 76,251 administrative missions during the first 18 months of the Korean conflict to "log" a total of 186,372 flying hours. During that time, only ten planes were lost due to enemy action, nine pilots and three observers losing their lives and ten other pilots and eight additional observers suffering battle wounds. Total casualties not due to enemy action were two men.

Protects Against Moisture

Bituminous coatings, with or without mineral or fibrous matter, are used to make surfaces moisture-resistant and to safeguard them against corrosion. Fibrous materials, such as felt, cotton fabric, burlap and asbestos, are used for roofing when they are impregnated with bituminous materials.

**No other light trucks
have all this**

YOU don't expect polo-pony agility from a truck in traffic — but the new GMC's have it.

You'd like to have passenger-car pace and economy on the highway — and you'll get it from the 1953 GMC's.

For there are two tremendous advances that step the new GMC's far ahead of all previous truck performance:

One: Dual-Range Hydra-Matic Drive* — the fully automatic shift with 3 speeds for traffic, 4 for the open road — available on 19 models throughout the 1/2-, 3/4- and 1-ton capacity range.

Two: a new line of engines of progressive design, with compression ratios of 7.5 to 1 and 8.0 to 1 — the highest of any gasoline truck engine ever built. Here's pile-driver power behind every piston stroke — flashing response and better mileage squeezed from regular fuel.

A number of chassis advances too, add to the extra-value features that make GMC's, point for point, the biggest dollar's worth in the light-truck field as well as in the heavier lines.

We confidently tell you — these great new GMC's will do your job better, easier, and at the lowest over-all cost. They have stamina beyond their size, because they're "built like the big ones" — the heavy-duty GMC's that lead the world in sales.

That's saying a lot. But just come in — and we'll prove it.

Joe and Helen Sterbenz Observe 25th Wedding Anniversary With Party

Mr. and Mrs. Joseph Sterbenz, Sr., of Bluff Lake, celebrated their twenty-fifth wedding anniversary Sunday with a reception at the American Legion home. There were 250 guests, and the guest list included residents of Madison and Milwaukee, Wis., Chicago, Waukegan, and Antioch.

Entertainment included a mock wedding in which young children participated. They were beautifully dressed.

A buffet luncheon was served at 5 p. m. and the evening was spent in dancing.

Pouring at tea were Miss Stephany Bichl, and Mesdames Paul Sterbenz, Marie Neme, Joseph Sterbenz, Jr., Robbie McCormick, and Sylvia Pulaski.

Mrs. Sterbenz wore for the occasion a white cocktail dress and her flowers were orchids.

She and her husband received many beautiful gifts in acknowledgment of the silver anniversary.

Mr. and Mrs. Sterbenz were married March 22, 1928 at Rockford and made their home in Janesville, Wis., five years before coming to Antioch. They are operators of Joe and Helen's Resort, formerly at Nielsen's Corners and now being housed in a new building at Bluff Lake.

EGG COLLECTION FOR WESLEY HOSPITAL AT METHODIST CHURCH SUN.

Palm Sunday is the occasion for people from the community, and members and friends of the Methodist church in Antioch to gather eggs for the Wesley Memorial hospital in Chicago.

The occasion is an annual observance in which many cases of eggs are shipped for the hospital kitchen. The eggs should be uncooked and uncolored. A letter from the hospital last year lauded the Antioch church for its consistent record of contributions to Wesley hospital. The highest number ever shipped was 189 dozen in 1950. Last year 165 dozen were collected.

Those bringing eggs may leave them at the church any time on Sunday morning. Arrangements for collecting, packing and shipping the eggs is being made by the committee on hospitals and homes. The following are members: Mrs. Effie Nelson, chairman; Mrs. Clara Westlake, Russell Rendall, Mrs. Onno Haak, Miss Belle Richards and Miss Alice Smith.

Near the end of the skating party there was a birthday celebration for Allan Masopust. A huge cake was cut and served to all who attended.

Everyone who attended the party enjoyed it very much and had a very good time.

SHORT STORY

The Scoffer

By Lavin Angeline

ARE SOME PEOPLE actually psychic?

Polly Glen, a practical, uncomplicated young woman, had always scoffed at the idea. But she never scoffed again after that night in Mexico City.

There was a fortune teller in an apartment across the court from the one that the continent-girdling friends from the States—Polly and Claire Benson—had taken for the few days they were to remain in the city. At odd moments they had watched her and her clients.

There hadn't been many such moments to spare, however, because that tall New Yorker, Dick Fitzgerald, had been giving Claire a terrific rush from the moment the three met at a table in a crowded restaurant the first night the girls were in the capital. After that, Polly cheerfully resigned herself to being an appendage.

Claire, always restless, suggested on impulse this morning, as she watched the fortune teller, "Let's go over and find out from the old girl if San Susie will get us home." (San Susie was Claire's rattle-trap coupe.)

The dour Mexican woman rifled the cards and spread them out. She nodded slowly to herself.

"One of you will be close to tragedy before this day ends!" she intoned solemnly.

Claire shivered in the hot sunlight, but Polly laughed.

"Stuff and nonsense!" she scoffed.

That night at dinner Dick or-

"One of you will be close to tragedy before this day ends," the Mexican fortune teller said.

dered cocktails but cautioned the girls. "Just one each. You can't take 'em like you could back in Milwaukee. The altitude, you know."

But, Polly, the skeptic, laughed at him as she quickly downed hers and demanded another. Before she had finished the second she began to feel awful.

"I—I guess I'd better go home," she said, faintly.

"O.K. We'll take you," said Dick. "Claire and I will come back and have our dinner, if you don't mind."

In the apartment Polly went to sleep on the davenport, under the balcony window.

In the restaurant again Claire suddenly said sharply as the dessert was served, "Something is happening to Polly! She needs me! Please, Dick, let's hurry!"

Dick clutched San Susie's side as it rocketed through traffic.

"Look, Claire, not so fast! We'll

have the police on us!"

"Can't help it! There's no time to spare!"

As Claire flung open the apartment door, flames licked greedily at the window curtain, only inches from where Polly lay. Claire shook her awake as Dick yanked the blazing curtains and tossed them through the open window to the balcony.

"I felt ill," Polly muttered. "I decided on bicarb. I prefer it hot, so I decided to heat water on the spirit stove . . . curtains must have caught from it . . . guess I went to sleep. It's a lucky thing you came back. How did you know?"

Claire shuddered, tears in her eyes. "Oh, Polly, I don't know. It was a hunch, I guess . . ."

Dick slipped an arm around her. "Good girl," he said. "Are you all right?" Claire nodded, staring through the window.

"Look!" she pointed. In the apartment across the court, the old fortune teller was studying the cards and nodding slowly to herself.

"Yes," Claire whispered. "Maybe it was a hunch . . . or Fate."

Vegetables

Vegetables in general are important chiefly for minerals and vitamins, some vegetables more than others. Most vegetables contain some fiber and so help to promote regular bowel movements.

Soften Sugar

Speedy Success

How fast is a sneeze? Researcher sneezed into an anemometer, which measures wind velocity, and found a good one goes out at 100 miles an hour.

CHRISTIAN SCIENCE CHURCHES

Advancement in any line is due to improved thinking. In order to progress physically, morally, and spiritually, man must improve his thinking, enlarge his concept of God, and follow Christ's teaching and example. This will be explained in all Churches of Christ, Scientist, on Sunday, March 29. The subject of the Lesson-Sermon will be REALITY.

The Golden Text is from Isaiah (64:4) "Since the beginning of the world men have not heard, nor perceived by the ear, neither hath the eye seen, O God, beside thee, what he hath prepared for him that waiteth for him."

Bible selections (King James Version) in the Lesson-Sermon include:

"I am the way, the truth, and the life: no man cometh unto the Father, but by me. . . Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do, because I go unto my Father" (John 14: 6, 12).

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include:

"The apostle says that the mission of Christ is to 'destroy the works of the devil.' Truth destroys falsity and error, for light and darkness cannot dwell together. . . To-day the healing power of Truth is widely demonstrated as an immanent, eternal Science, instead of a phenomenal exhibition. Its appearing is the coming anew of the gospel of 'on earth peace, good-will toward men'" (pp. 474, 150).

**Rent Stabilization Board
Decontrols One- and Two-
Room Furnished Units**

It has been announced by William G. Bar, Director of Rent Stabilization, Washington, D. C., that effective Thursday, March 12, 1953, all one room and two room furnished units in Rooming Houses, and private homes where the rental includes linen and maid services, are decontrolled, provided that kitchen facilities, kitchen privileges, or cooking in the said units are not services or a part of the rental agreement. This Decontrol Order affects all such units located in Lake County, Illinois.

This action resulted from recommendations made by the local Rent Advisory Board of Lake County.

The Board also has under consideration a question of whether motels, considered as a class of housing accommodations, "can be decontrolled without having a serious effect on the rent stabilization program in Lake County, which was designated a critical defense area."

Operators of motels who wish to submit factual data which will assist the board in reaching a proper determination, may do so on or before April 1, 1953, by filing such written data with the Area rent office, 325 W. Washington st., Waukegan, Ill.

"This Made Me Chuckle"

Irate Father: "Get out of that bed. It's after seven o'clock. What do you suppose George Washington was doing at this time of day when he was your age?"

Sleepy Son: "I haven't the slightest idea, but when he was YOUR age, he was President of the United States."

Contributor's Section

I particularly like this poem written by one Ed Stone (whoever HE is?) in 1928:

MY HOUSE

If ever you come to my house
(As you are passing near),
You'll find a box outside the door,
Leave there your hate and fear.
Put in your cynical wisdom,
Your cunning and your guile,
You may come in with grief, or sin
Or with an honest smile.

If ever you enter my house
(Don't pass but step inside)
You'll find a hook behind the door,
Hang there your cloak of pride.
And your mantle of self righteousness,
You will not need them here,
For the hearth is warm against the storm
And aglow with friendly cheer.

And when you go from my house,
(Yours as much as mine)
Where all is frank and friendly,
And nothing grand or fine,
After an hour's rare luxury
Of being your simple self,
You will leave your pride, forgot,
inside
And your mask upon the shelf.

Those Ideas of March

More than a few of my readers (does he really have more than one?) write in and squawk mightily because they have to be prompt with their income reports, and then

they wait "for only God knows how long" for refunds from their withholding tax. Now listen: The Duchesses and I went to hear the Chicago Civic Orchestra recently. We sat in the very front row, just to the side of the conductor. First violins, cellos, French horns, and even a lady harpist sat very chummily all around us. One nice looking chap interested us somewhat. Wondered what he was doing there? No horn, drum, violin, saxophone... NOTHING! Merely sat there turning the leaves of his music. It looked silly to us. But near the end of the 3rd act, he reached in his pocket and brought out a little flute about the size of a lead pencil... glanced up at the leader and then putting the flute to his lips played just a few notes that were as wild and free and beautiful as ever came from a skylark. Then, putting the flute back in his pocket, he smiled. We now know that never again will we listen to a large orchestra without hearing once more those sweet throbbing tones. And do you know what? Waiting for your refunds may be something like that? And life is, too.

Commonwealth Edison
Merges with Pub. Service

Merger of Public Service Company of Northern Illinois into Commonwealth Edison Company was approved by stockholders of both companies at special meetings Mar. 17. At the Edison meeting, stockholder representation in person or by proxy of more than 87 per cent was the largest in over 25 years.

Edison stockholders elected thirteen Public Service directors to the Edison board. They are:

Preston A. Boyd, Freeport; Harry E. Burkholder, Sterling; James D. Cunningham, Chicago; Albert B. Dick, Jr., Chicago; Bernard E. Gierz, Elgin; Walter I. Jones, Joliet; William J. Kelly, Chicago;

Joseph H. King, Chicago; Raymond F. List, Belvidere; Perry L. McPheeters, Wheaton; Leroy S. Stephens, Aurora; Edward Valle, Dixon; and John Wentworth, Chicago.

Public Service, formerly a subsidiary, now becomes a division of Edison. The merger involves no change in personnel or operations.

Willis Gale, Edison chairman, said the merger is the final step in a program of corporate simplification and integration which has been going on for 15 years.

As of December 31 last, Edison owned 2,167,233 shares, or 99.87 per cent, of the 1,160,000 shares of Pub-

lic Service outstanding. The remaining 2,787 shares in the hands of the public will be converted on the basis of 4.2 shares of Edison stock for each share of Public Service stock, resulting in a nominal increase of 11,621 shares, or less

than one-tenth of 1 per cent, in the outstanding Edison stock.

Abatis

A defense made with felled trees with boughs pointing outwards is called an abatis.

Onion Gravy

Braised short ribs make a tasty dinner especially if they're served with onion gravy. Brown 4 cups sliced onions in fat, then blend drippings with flour and add water or meat stock and seasonings.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.
